

Experience is not a collection of screens, but a continuum of moments!

Our client belongs to the new generation of innovative design studios, whose goal it is to create valuable and emotional experiences for users. They are a super international, multi-disciplinary team of designers from around the world, shaping delightful and meaningful experiences. With user research, interaction and visual design as well as prototyping and development, they support each stage in innovative software development.

Their clients range from Fortune 500 companies to start-ups across very diverse industries. And because they care for responsibility, strive for reliability and create what they love, they need a passionate creative to foster further growth.

This is where you come in ... we are looking for you, who can define with intelligence, push with passion, and reflect with empathy.

SENIOR UI DESIGNER | SOFTWARE & APPLICATIONS (m / f)

We are looking for a Senior Visual Designer driven to design solutions for challenges in automotive, transportation and / or Fin Tech.

The Role:

- Develop innovative and state-of-the-art visual design, typography and screen layouts for software, applications, web sites, and other interactive media
- Responsible for user and design research, design strategy, information architecture development and interaction design for software products
- Provide design direction to other designers and work closely with the development team to ensure that design specifications are implemented

Experience:

- Bachelor's or Master's degree in Interaction Design or a related design discipline
- Several years of professional experience in designing user interfaces and UX concepts
- Strong knowledge of user interface design processes and methodology
- Excellent visual design abilities
- Experience in project and people management
- Proactive team player with strong written and verbal communication skills

Are you obsessed with filling up the wall with ideas, transforming randomness to relevance and bringing awakenings and smiles to the experience?!

Do you like to define problems, shape opportunities and realize experiences with a multidisciplinary and truly international team? Than come and join the future of innovative experience design!

You'll find challenging projects for global clients in a surrounding without hierarchies and restraints. You'll get the opportunity to pursue your interests and to implement own ideas!

Sounds great? Then we'd love to hear from you!
