

Our client is a leading design company, consulting on, designing and communicating a desirable brand experience. With an interdisciplinary approach and an international team with a vast range of skills, cultural backgrounds and experiences the company is set to deliver to the highest standards for their clients: Brands worldwide trust our client to sharpen, shape and create their future, delivering on their brand's unique values by working closely with them and thinking creatively.

To strengthen their team we are looking for an experienced

UX DESIGNER | BRAND EXPERIENCE **(m/w)**

Responsibilities:

- Think beyond websites, apps and HMIs and create user experience from concept all the way through to design and testing!
- Concept ideation and development for digital design projects and programs that focus on the user experience and navigation
- Execution with compelling, intuitive and logical designs
- Preparation of functionality and user tests to evaluate the success

Requirements:

- Bachelor's or Master's degree in Graphic Design, Digital Media Design or other visual arts is preferred
- Design experience in providing the complete lifecycle of successfully launched websites and/ or mobile applications
- Experience designing responsive websites and apps with a diverse team of designers, web developers and contractors
- Experienced in working with lean and agile methodologies
- Best-in-class knowledge of technological development and user-oriented thinking
- Great presentation and communication skills
- A good sense of humour
- Fluent in German and/ or English

In this role you'll use research and use-cases as your guide to develop innovative designs for digital products, which are needed to complete the brand experience. Come and join a super cool team working on exciting projects which will shape the future!
